

TECHNICAL DATA SHEET

Tocobest™ D-α-Tocopheryl Acetate Oil

400IU m

Chemical Properties

CAS No.: 58-95-7

EINECS No.: 200-405-4

Chemical Formula: C₃₁H₅₂O₃

Molecular Weight: 472.75

Description

Vitamin E acetate, also called tocopherol acetate, is a dry form of vitamin E that is commonly referred to as tocopherols. The acetate form is an ester, which has a much greater stability than unesterified tocopherols. One of the principle differences between the dry and oil forms of this vitamin is that the former has no immediate antioxidant properties. An antioxidant is a substance present in many all natural foods that are rich in nutrients. They help to retard the aging of cells and play a vital role in protection against free radicals.

Solubility

It is insoluble in water, but soluble in ethanol, gasoline, ethyl and vegetable oil.

Specification

Item	Specification	Test Method
Appearance	Viscous oily liquid	Organoleptic
Color	Clear, slightly yellow	Organoleptic
IR	To conform	EP
Specific rotation	Min+24°	EP
Assay	Min 29.4%(Min400 IU/g)	EP
Acidity	Max 0.5ml	EP
Free Tocopherols	Max 1%	EP
Heavy Metals	Max 10ppm	EP
Total plate count	1000 CFU/g max	EP
Yeast & mold	100 CFU/g max	EP
<i>E. Coli</i>	Negative	EP

<i>Salmonella</i>	Negative	EP
<i>Staphylococcus</i>	Negative	EP

Ingredients

D-alpha-tocopheryl acetate NLT 29.4% and refined soybean oil LMT 70.6%. (m is short for soybean oil)

Labeling

In the United States and the European Union: Tocobest™ Vitamin E Oil
D-alpha-Tocopheryl Acetate 400IU

Applications

Used for fortification of margarine, oil and fat, nutrition products and baby food, also used in soft capsules and cosmetic products.

Safety

This product is safe for the intended use. Avoid ingestion, inhalation of dust or direct contact by applying suitable protective measures and personal hygiene. See Material Safety Data Sheet for full safety information.

Handling recommendations

Keep container in a cool, well-ventilated area. Keep away from heat. Keep away from sources of ignition. Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material. Do not ingest. Do not breathe gas/fumes/vapor/spray. If ingested, seek medical advice immediately and show the container or the label. Keep away from incompatibles such as oxidizing agents.

Packaging, Storage & Shelf Life

Package	20kg/drum; Or in accordance with the customer's requirements.
Storage	Keep container tightly closed. Keep container in a cool, well-ventilated area.
Shelf Life	The product may be stored for 24 months if sealed and stored properly.
