

TECHNICAL DATA SHEET

Oilgin™ DHA Algae Oil

35% RTC

Chemical Properties

CAS No: 6217-54-5;

INCI name: Docosahexaenoic Acid

Chemical Formula: C₂₂H₃₂O₂

Molecular Weight: 328.488

Description

Oilgin™ DHA Algae Oil is commercially manufactured from microalgae *Schizochytrium*, It is a vegetable-source DHA. Rosemary extract, tocopherols and ascorbyl palmitate, as antioxidants, are added to provide stability. It is suitable for vegetarians and vegans due to its sustainable microalgae sourcing. The microalgae is cultivated in a strictly controlled environment. It is extracted using an entirely natural enzymatic process with no solvents, then subjected to a high-tech purification and concentration process.

Solubility

It is not soluble in water, but soluble in Ethanol, acetone and other organic solvents.

Specification

Item	Specification	Test Method
Appearance	Clear oily liquid	GB26400-2011
Color	Pale yellow to orange yellow	GB26400-2011
Taste & Odor	Characteristic, no other peculiar taste and smell	GB26400-2011
Assay of DHA	Min 350mg/g	GB26400-2011
Peroxide Index	Max 5.0meq/Kg	GB/T 5009.37
Unsaponifiable	Max 4.0%	GB/T 5535.1
Acid value	Max 1.0mg(KOH)/g	GB/T 5009.37
Moisture	Max 0.1%(W/W)	GB 5009.3
Residual Solvents	Max 1.0 mg/Kg	GB/T 5009.37
Insoluble impurities	Max 0.2%(W/W)	GB/T 15688
Trans fatty acids	Max 1.0%(W/W)	GB 5413.36
Aflatoxin B1	Max 5.0(μg/Kg)	GB/T 5009.22
Lead	Max 0.1ppm	GB 5009.12
Arsenic	Max 0.1ppm	GB 5009.11
Melamine	Negative	In-house
Bacteria counts	Max 1000cfu/g	GB 4789.2
Mold	Max 25cfu/g	GB 4789.15

Coliforms	Max 10cfu/g	GB 4789.3
<i>E. Coli</i>	Negative	GB 4789.38
<i>Enterobacter sakazakii</i>	Negative	GB 4789.40
The pathogenic bacteria count	Negative	GB 29921

Ingredients

DHA Algae Oil ;Rosemary Extract, Tocopherols and Ascorbyl Palmitate (as antioxidants). (R is short for Rosemary Extract, T is short for tocopherols, C is short for Ascorbyl Palmitate)

Labeling

In the United States and the European Union: Oilgin™ DHA Algae Oil 35%

Applications

1. DHA can help support a healthy pregnancy.
2. DHA is important for brain and eye development for infant and ongoing brain and eye development for children.
3. DHA supports brain, eye & heart health for adult.

Safety

This product is safe for the intended use. Avoid ingestion, inhalation of dust or direct contact by applying suitable protective measures and personal hygiene. See Material Safety Data Sheet for full safety information.

Handling recommendations

The product should be thawed completely and well mixed before use, avoid oil temperatures exceeding 60°C / 140°F during the thawing process for best sensory performance. When possible, use the entire contents of the container at one time. Unused portions should be blanketed with nitrogen and stored frozen.

Packaging, Storage & Shelf Life

Package	20kg/steel drum or 5kg/aluminium can, stuffed with nitrogen; or according to customers' requirements.
Storage	Store in a dry place, avoid dump condition and direct sunlight, and do not co-stored with toxic or hazardous materials.
Shelf Life	The shelf life of the product is 24 months in frozen (minus 18 °C), 12 months in cool condition (about 5°C), and 1 month in room temperature(about 25°C).
